About Kitchen Innovations Inc:

Kitchen Innovation designs, manufactures and distributes gourmet kitchen products available at speciality shops and retail stores across North America and Europe. It is our mission to bring unique kitchen products with functionally superior designs and ergonomics to today’s quality conscious consumers. Kitchen Innovations head office is located in Toronto Canada. We maintain sales offices in Atlanta and Los Angeles with distribution centers in Chicago and Toronto.

Our products are supported by our 10 year guarantee and are always produced to meet our own exacting standards.
About Zeal:

At Zeal we put all our knowledge and experience into spreading the joy of cooking – developing innovative products that bring speed, ease, and fun into your kitchen. For people who love cooking as much as we do.

The joy of a beautiful product begins with a touch, so the material quality and finish must be considered and selective as the design and functionality. If we wouldn’t buy it for our kitchen then it isn’t good enough for yours.

Love cooking, love Zeal.

The Spoon
Ultimate Cooks Tool

- Designed to replace the wooden spoon
- 100% rigid from handle to tip
- Stainless steel core
- The only true silicone mixing spoon
- Hygienic non absorbent material

Silicone kitchen tools have taken the culinary world by storm. They are fun, easy to clean, colorful and will not damage non stick cookware. However, not all silicone tools are made equal, many use inferior grade silicone, containing filling materials which both reduce the tools effectiveness and in some instances can be potentially harmful.

All Zeal tools are 100% EEC approved. Made with pure silicone specifically developed for use with food they are ergonomically designed, constructed to last and are an indispensable essential for any busy kitchen.

Stainless steel to the very edges for the most rigid mixing spoon ever.
